

We're excited to let you know that **Plumbers and Pipefitters Medical Fund** has asked Humana to offer retirees a Medicare Advantage and Prescription Drug Plan **beginning February 1st, 2024**. This plan provides medical and prescription drug coverage for Local 5 retirees and their dependents who are eligible for Medicare.

Below are some important things to know:

- The Humana Medicare Advantage with Prescription Drug plan is the primary insurance for Medicare retirees of Local 5. The Humana ID card with the Local 5 logo is the only card you need to show when you go to the doctor, hospital, or pharmacy. You do not need to use your red, white, and blue Medicare card while on this plan, but please keep it for your records.
- You may use any doctor, hospital, or medical provider that accepts Medicare and is willing to submit the bill to Humana, even if they are not part of the Humana network. The Local 5 plan provides the same medical benefit at in- and out-of-network providers. This offers great flexibility on which doctors you can use.
- There is no annual deductible for the medical or prescription drug benefit. You also have out-of-pocket maximum protection which limits how much you have to spend on covered services and prescriptions throughout the year.
- Humana has a variety of tools, programs and resources that provide more benefits than Original Medicare. These extra benefits include, hearing aid coverage, SilverSneakers Fitness program, Go365 wellness rewards, and more.
- If you would like a packet with more information about the plan, please contact Tiffany Jennings at Tiffany.jennings@Benesys.com
